

As of 5:30pm Sunday, March 15th, the Royal College of Dental Surgeons of Ontario has mandated that all dental practitioners stop providing non-emergency dental care.

This means we are not allowed to treat patients except in the case of an emergency. Orthodontic emergencies could include painful pokey wires and loose appliances. They do not include loose braces, regular adjustments, or other routine visits.

If you are in mild discomfort, we recommend using wax and staying at home. If, however, you have a true emergency, please call our office and we will arrange for you to be helped.

We are so sorry for this inconvenience. We are simply following the authorities' directions. Once we know more, we will call you to reschedule. ***Whatever happens, we will not allow your/your child's health to suffer.***

Stay safe,

Red Hill Orthodontics
